

More About Us

Zivudronen Ltd.
Manufacturing Electronic Systems & Packaging

Established in 1987 Zivudronen Ltd. is a leading manufacturer of electronic packaging material. Our long track record of design, engineering and manufacturing of customized solutions for a variety of industries has gained us the experience, knowledge and ability to supply premium products of the highest quality and standards addressing our customers' requirements.

All our products are manufactured in our 7,000 square meters of advanced manufacturing facilities. With more than 120 professional and dedicated employees, long term customer relations positioned Zivudronen among the leading companies in the Israeli market.

Specializing in the field of Telecom and Communications we execute large scale full turnkey projects including production, procurement and material management, constantly improving our operations for optimal cost effectiveness.
